

STONE

STONE

Stone is a collection of distinctively designed, solid-looking furniture inspired by classic Bauhaus aesthetic.

The family consists of comfortable sofas and armchairs in several variants, with or without armrests, and a footrest. The armchair and footrest combination creates an interesting variation on the theme of chaise longue.

The unique collection sports a modular design, and offers the possibility of length adjustment to individual needs. With the wealth of available options, Stone is a superb choice for furnishing residential interiors, but also public spaces and offices.
