

Noti.X40

X40 is a family of four pouffes with polygonal (triangular, square, hexagonal and octagonal) bases. The basic structural elements are styrofoam profiles covered with polyurethane foam. As a result, the pouffes are very lightweight and can be arranged and rearranged as often as you please.

A common element in all the pieces is a rectangle with rounded corners, 40 cm in width. Thanks to identical sides, the pouffes can be set out in a variety of configurations. In addition to interesting forms and shapes, another hallmark is the colour, with customers being offered a wide range of Noti fabrics to choose from.

The X40 family is an excellent choice for furnishing public utilities or modern residential interiors.

Technical description

Base

Synthetic feet

Seat

Polyurethane foam

Construction

Plywood, polystyrene

Finish

Fabric, leather

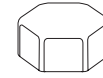

Width × Depth × Height × Seat Height (cm)
