

Noti.Rosco

Rosco is a collection of modular sofas, armchairs and pouffes designed for flats. The horizontal form of low backrests, together with the flawlessly fitting cushions, is a distinctive feature of the collection. The shape of the cushions provides not only comfortable back support, but also a wide array of possible arrangements, as the cushions can be moved and rotated. Additionally, the variety of modules ensures the freedom to compose our own configurations of lounge sets. All modules are placed on steel loop legs which complement the form of each Rosco piece.

In 2020, Piotr Kuchciński designed a new base for Rosco sofas, placing them on subtle metal legs which make the collection visually light.
